

V LAKSHMANA SWAMY

+91 9553372839 2200030326cseh@gmail.com Portfolio lakshmana-swamy Lakshman1543

Education

Koneru Lakshmaiah University (KL University)

July 2022 – May 2026 (Expected)

Bachelor of Technology in Computer Science and Engineering (CSE) — CGPA: 9.4 / 10

Vijayawada, Andhra Pradesh

Technical Skills And Interests

Programming Languages: Java, Python, SQL, PL/SQL, C

Core CS Concepts: Data Structures & Algorithms, Object-Oriented Programming, Design Patterns, System Design

Databases & Warehousing: MySQL, PostgreSQL, MongoDB, Data Warehousing Concepts

Web Development: HTML, CSS, JavaScript, React.js, TypeScript, Node.js, Express.js, JSP, Servlets, Django

Cloud & DevOps: AWS, Google Cloud, CI/CD Pipelines

Backend Frameworks: Java EE, Spring, Spring Boot, Hibernate, RESTful Web Services, Microservices

Developer Tools: VS Code, IntelliJ IDEA, Eclipse, Git, GitHub, Postman

Soft Skills: Leadership, Mentoring, Team Collaboration, Effective Communication, Public Speaking, Task Prioritization & Deadline Management

Projects

Online Certification Management | *Spring Boot, React, MySQL, Rest API, AWS*

December 2024

- Engineered a scalable certification management system using Spring Boot & React.js, reducing manual workload by 40% and optimizing operational efficiency through automation.
- Built secure RESTful APIs for certificate issuance, validation and revocation using Java, Spring Boot, and cloud solutions, improving system efficiency by 35% and reducing response time by 25%.
- Utilized **Hibernate ORM** for efficient database interactions with **MySQL**, optimizing query performance and reducing response time.
- Followed **CI/CD** best practices using **GitHub Actions** to automate deployments and reducing release time by 40%, while improving deployment success rate by 30%.

Pet Adoption and Accessories Management System | *MERN Stack, REST API, JWT*

March 2024

- Engineered a full-stack MERN application, enabling users to browse and adopt pets, as well as purchase accessories, streamlining the adoption process and increasing user engagement by 40%.
- Designed a responsive UI with **React.js & Redux**, improving load speed by 30% and optimizing state management for a smoother experience.
- Built** a scalable **Node.js** and **Express.js** backend, incorporating **RESTful APIs** for secure authentication, order management and adoption requests.
- Engineered **MongoDB** optimization using **Mongoose ORM**, cutting query execution time by 60% and enhancing data retrieval efficiency across services.
- Implemented **JWT-based authentication** to enhance platform security, ensuring encrypted user sessions and access control.

Employee Management System | *React.js, Spring Boot, MySQL*

March 2025

- Developed a scalable **Employee Management System** using **Spring Boot** for backend services and **React.js** for the frontend interface.
- Implemented **JWT-based authentication** and **role-based access control** for Admin, Manager, and Employee roles.
- Integrated key modules such as duty assignment and leave application workflows with dynamic, role-specific access.
- Used **MySQL** for secure data persistence and deployed the application on **Render** with GitHub-based CI/CD.

Certifications

- RedHat Enterprise Application Developer Verify Credential
- AWS Certified Cloud Practitioner Verify Credential
- Frontend Developer (React JS) & Java (5), Problem Solving (3) Profile

Leadership & Extracurricular Activities

Co-Founder & Mentor

Sep 2023 – Present

Be One Community Student Club, KL University

- Led 50+ training sessions on web development, leadership, and soft skills, mentoring 3,000+ students to enhance technical proficiency, problem-solving, and career readiness.
- Mentored peers on Git, full-stack projects, and DSA coding challenges.
